Sean and Wil from All Pro did a significant restoration job for me. Two of my apartment buildings were substantially damaged by a windstorm. They came in with a comprehensive bid that covered everything, coordinated with my insurance adjuster and my on-site manager, and, most importantly, did everything (and more) on time, and on budget. When they found unforeseeable issues, they dealt with them quickly and professionally. I would not hesitate to recommend them, and, if necessary, to use them again.

We live in California and own an apartment in Phoenix was severely damaged by fire about 1/2 million in damage. The fire occurred on Friday 11/11/2018 we contacted All Pro Restoration late the following day to see if they could put a fence around the property. They were able to get the fence up on Sunday. We then asked them to give us a bid. The insurance delayed the start of restoration by 10 weeks. All Pro Restoration was able to make our seven plex into an eight plex with no additional cost to us in a very timely basis. They dealt with the insurance company and ourselves very professionally. They sent sample of products to choose for the restoration, they dealt with all the permits and made this stressful time very easy for us. We were so lucky to find them. We would highly recommend them. Thanks again Sean, Wil and their team.

My house accidentally burned down about a year ago, and after a long process with the insurance company I received the funds to rebuild it. Will and Sean from All Pro Restorations were recommended to me by someone whose opinion I take very seriously. They did an incredible job on my home, from start to finish they were great and easy to work with, fair and understanding of all my requests and made sure I was completely satisfied with my home. They even came back in after I paid them to change a few things I wanted changed and Will even helped me hang a few TV's on the wall. I've never been one to trust a company's or really anyone when they say they will do something and do it right, but my experience with All Pro Restorations has made me see that there are still some great people in this world who do really care about how you feel when it's all said and done. I would recommend these guys to anyone who recently suffered a loss, they will handle your case with care and make sure you're made whole again.

This company is extremely well run and very punctual. They were able to remove all damaged carpet, walls and furniture when my business suffered a flood. They took all furniture to an off-site storage facility and held it until the restoration was complete. I could not have been more pleased with their work.

I recently hired All Pro Restoration to demo two multi-family properties in the Arcadia neighborhood of Phoenix, AZ. The buildings were constructed in the 1950's and as such, needed an extensive asbestos abatement prior to demo. Sean and Wil educated me on the process, gave me the competitive pricing I was looking for and executed ahead of schedule while keeping me informed of their progress every step of the way. They lived up to every promise made during the bid process and I can honestly say it was the most seamless and enjoyable experience I've ever had with a contractor. I fully endorse them without hesitation and look forward to working with them again in the near future.

I had All-Pro renovate my new home before I moved in. They put new tile, carpet, paint, granite counters, painted the cabinets, and made some electrical alterations. I have to say that I have never had a better construction experience. They were fast, responsive, under budget and the quality of the work is perfect. They provided design advice at our request throughout the job and their colors and finish work is beautiful. The sub-contractors they use are there when they say they will be, they actually come back to touch up/correct small issues after they are done and they are courteous. Will McCleve was my contact with All-Pro and I found him over at the house working late a number of times, he really takes deadlines seriously and makes them happen. I didn't have to motivate anybody; it was an effortless process for us. We made a bunch of changes mid-stream and Will took it in stride and had a great attitude throughout the project. I will always use this company going forward, like I said, I've never had such a good customer service experience.

I don't even know where to begin. I bought a home last year and 4 days later it burnt due to electrical issues and was a total loss. Thankfully no one was home at the time. When I first met these gentlemen, I was frustrated with my insurance company, my original contractor had just walked away from the project before it started, and I had hired a public adjuster. From day one these guys have made me feel like a priority. They have made sure that I understood where we were at, and what to expect next. They have not only fulfilled everything that they promised they would do, but they have gone above and beyond to resolve unforeseen issues. In fact, they are the only ones that have done what they said they would do and when they did it the workmanship was top notch. I would have them rebuild my house ten times over and am one happy home owner. These guys are a blessing.

Last summer, my rental property sustained a massive fire destroying everything. I was approached by multiple builders wanting to rebuild my property. I was referred to All Pro Restoration through a family member. After meeting with Wil and Sean, I hired them immediately. I'm glad I did! They did a fantastic job restoring my property making it much better than it was prior to the fire. They handled all aspects of the build from dealing with design aspects navigating the City of Scottsdale and the many code compliance issues the rebuild required. I was very pleased with the process and the finished product. All Pro implemented a realistic time frame and kept me informed every step of the way. Without hesitation, I would recommend them for all your building and design needs.
